

SteamBake, your at-home bakery

By adding steam, you can create mouth-watering muffins and perfect pies at home with the 600 SteamBake Oven. You can enjoy roasted chicken, lasagna and fish with even cooking results. For crunchy crusts and fluffy insides at the touch of a button.

Product Benefits & Features

SteamBake for delicious baking

SteamBake lets you create bakery-style results in your own home, at the push of a button. Humidity allows dough to rise up fully, creating deliciously soft insides, while dry heat creates rich, glossy crusts. Enjoy not only delicious bakes, but even roasted chicken and flaky fish.

Precision cooking with our Food Sensor

Thanks to our Food Sensor, you can achieve perfect results every time. It lets you monitor the cooking process by measuring the core temperature of the food. It will even let you know when your food has been cooked to the desired temperature and stop cooking.

Pyrolytic Cleaning for sustained sparkle

Keeping your oven like new isn't hard work with our smart Pyrolytic Cleaning function. This self-cleaning system heats the oven to a temperature that turns grease and other residue to ash. Meaning you simply need to wipe the bottom. Never spend another day scrubbing.

The LED timer display sets the best temperature

The LED display suggests the right temperature based on the cooking function you select, so you never need to guess what temperature is best suited for your dish. You can still adjust temperatures manually, and set start and stop times.

Save time with the Fast Heat Up function

Our Fast Heat Up function makes sure the oven is ready when you are. With a shorter pre-heating time compared to conventional heating, you can turn those spare moments into more memorable meals.
