

Water efficient cleaning and flexible, easy-to-load baskets

The 700 series is water efficient and easy to load. Get sparkling dishes with as little as 8.4 litres of water using the Eco-program and experience how easily your dishes fit in its large-capacity, flexible baskets with foldable sections.

Product Benefits & Features

Effective, efficient cleaning using water only where needed

WaterSmart is a water system with spray arms that work individually, directing water where it's needed. The result is efficient cleaning with as low as 8.4 litres of water, when using the Eco program.

Spacious, easy-to-load baskets with cutlery drawer

Redesigned, smooth-gliding FlexiMax Baskets have two folding rows to fit large or oddly shaped crockery. Anti-slip rubber spikes keep glassware and delicate items from colliding. Cutlery drawer even fits whisks and ladles.

Uses fresh air to finish drying

AirDry uses fresh air to finish drying the dishes. This makes the drying performance up to 3x better compared to a closed-door system. The door automatically opens towards the end of the cycle to let in fresh air.

Effective cleaning and hygienic care

ExtraHygiene removes more than 99.9999% of bacteria and viruses*. The cleaning phase heats up to 69°C for a minimum of 10 minutes to remove microorganisms. This sanitizes your dishes, for spotless results with hygienic care.

*Tested for Micrococcus luteus and MS2 bacteriophage in external test performed by Swissatest Testmaterialien AG in 2021 (Test Report No. 20212029).

Adjustable basket easily adds room where you need it

QuickLift easily creates more space in the upper or lower basket. Simply grasp the handle on one or both sides of the upper basket and slightly pull up to raise or lower one side or both sides. Works smoothly even when it's full.
