

Effectively and easily cleans your dishes

The Electrolux 500 series delivers clean dishes and finish drying with fresh air. Enjoy easy operation, generous loading space and height-adjustable upper basket.

Product Benefits & Features

Uses fresh air to finish drying

AirDry uses fresh air to finish drying the dishes. This makes the drying performance up to 3x better compared to a closed-door system. The door automatically opens towards the end of the cycle to let in fresh air.

Easy, time-based program selection

With TimeSet you don't have to figure out what program to use. Just decide how soon you want your dishes to be ready, set the cycle length and press start.

Height adjustable upper basket creates space where you need it

Easily get more height in the upper or lower basket. Simply grab the handles on the sides of the QuickLift upper basket and slightly pull up to raise or lower it. Works smoothly even when it's full.

Clean dishes in only 30 minutes

When you need clean dishes in a hurry, use the QuickClean to get clean dishes in 30 minutes.

MachineClean cycle maintains dishwasher performance

Keep your dishwasher running at its best with the MachineClean cycle. The specifically designed programme and detergent work together to remove limescale and greasy build-up, so you can always enjoy spotless dishwashing results.

- Touch control for programs and functions selection
- Delay Start
- Indications for salt and rinse aid
- AirDry
- Door Fit Kit included
- Auto Off function
- Upper basket with Foldable cup shelves
- Lower basket with Low round rack frame, fixed tines
- Options: PowerBoost
- Dishwasher programmes: 90 Minutes, AUTOClean, ECO, MachineClean, QuickClean, QuickRinse
