

Effectively and easily cleans your dishes

The AEG 5000 series cleans effectively and finish drying with fresh air. It's spacious and easy to operate with time-based cycle selection and height adjustable upper basket.

Product Benefits & Features

Finishes drying with fresh air

AirDry finishes drying with natural airflow. The door automatically opens towards the end of the cycle, letting room-temperature air into the dishwasher. Up to 3x better drying compared to a closed-door system.

No more thinking about what program to use. Just choose time

No need to choose a program with TimeSelect display. Just decide how soon you want your dishes to be ready and let the dishwasher take care of the rest.

Clean dishes in 30 minutes

When you need clean dishes fast: QuickProgram takes just 30 minutes. Efficient and convenient.

Optimise performance with MachineCare

Maintain optimal performance with the MachineCare cycle. The programme is designed to remove limescale and the build-up of grease. To ensure the dishwasher always performs at its best, with special care detergent.

Rinse cycle for when the dishwasher is not full enough to run

When your dishwasher is only half full, you may not want to run a full cycle. The Rinse & Hold program quickly rinses partial loads of dishes, minimising unpleasant smells and bacteria growth.

- Delay Start
- Indications for salt and rinse aid
- AirDry
- AutoProgram
- Auto Off function
- Upper basket with Foldable cup shelves
- Lower basket with Fixed tines, Low round rack frame
- Options: ExtraHygiene, ExtraPower, GlassCare
- Dishwasher programmes: 120 Minutes, 60 Minutes, 90 Minutes, AUTO Sense, Eco, Machine Care, Quick 30 Minutes, Rinse & Hold
