Neck & Chest LED

Reduce Wrinkles
Even Tone & Texture
Enhance Radiance
Relieve Neck Tension

Neck & Chest LED delivers a clinically-proven dose of red and infrared light to visibly reduce the appearance of fine lines and improve the appearance of skin firmness across the neck, chest and jawline.[1] Precision-contoured for full coverage, each hands-free session lasts 9 minutes — and the lightweight design pairs with TheraFace Mask for a complete face-to-chest skincare routine. Relaxing VibraWave™ Technology adds heated massage to the back of the neck, boosting relaxation and relieving tension with every use.

Science-backed benefits

- **Red light** supports collagen production to improve the appearance of skin firmness and visibly reduce fine lines and wrinkles
- **Red + infrared light** targets deeper layers of skin to reduce the appearance of dark spots and improve skin radiance
- **VibraWave Technology** heated massage helps to ease neck tension and boost relaxation

Key features

- 288 LEDs for full, even coverage
- Precision-contoured neckline for jawline coverage
- Full coverage of the entire neck and chest area
- Lightweight design, made with professional-grade silicone for a smooth finish
- VibraWave Technology with soothing heat
- Adjustable for a comfortable, universal fit
- 60-minute battery life
- Compatible with TheraFace Mask (sold separately) for simultaneous face-to-chest coverage
